

# The 16<sup>th</sup> KOGO Winter Symposium

## Genomics, from ambiguity to clarity

2020.02.05(수)-07(금)

📍 강원도 홍천, 대명리조트 비발디파크

\* 사전 등록 : 19.12.02(월) – 20.01.02(목)

\* 초록 등록 : 19.12.02(월) – 20.01.02(목)

### \* Plenary Lecture

The interplay between  
microbiome and  
host immunity  
in Health and disease

Jihyun F. Kim  
(Yonsei University)

Challenges, opportunities  
and directions in  
single cell analysis

Woong-Yang Park  
(Samsung Medical Center)

### \* Preliminary Program

- Cancer genomics
- Microbial genomics
- Complex disease genomics
- Proteogenomics
- KOBIC
- Animal & marine genomics
- Plant genomics
- Bioinformatics and systems biology
- Advances in omics technology
- Epigenomics
- Pharmacogenomics
- Single cell genomics

### \* Open Targets Workshop

#### Workshop 1

Beginner's session for Single cell 3' RNA  
sequencing analysis

#### Workshop 2

Polygenic risk score

한국유전체학회  
Korea Genome Organization
